September 10, 1982

Mr. William J. Casey
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Casey:

A Panel of the National Academy of Sciences has been meeting for the past six months under the chairmanship of Dale R. Corson, President Emeritus of Cornell University, to examine the relationship between scientific communication and national security. This study was requested by the Department of Defense as a result of recent concern about the extent of transfer, or leakage, of U.S. scientific and technological information to major military adversaries. A list of Panel members is appended to this letter.

The Panel's work is now nearing completion, and its report is expected to have a major impact on the course of public debate on this matter. I am writing to request an appointment to discuss briefly the main conclusions of the report. Since the report will be released on September 30, it will be most useful to meet with you before that time. May I leave it that we will be in touch with your office to see if it is possible to arrange a briefing?

I appreciate your cooperation and involvement on this important matter of national interest.

Yours sincerely,

Frank Press

Frank Press
President
